Agenda

- Team Foundation Server vs. Service
- Details of the Team Foundation Service Preview
- Getting Started, Getting Productive

We aren't your only hosted TFS option...

[More Details Here.](#)

The Team Foundation Service is another great way to get Team Foundation Server.

Server vs. Service

	Server	Service
Work Items, Source Control, & Build	■	■
Agile Product/Project Management	■	■
Test Case Management	■	■
Heterogeneous Development	■	■
Near-zero setup and administration	■	■
Collaborate with anyone, from anywhere	■	■
Virtual Test Lab Management	■	■
Sharepoint Integration	■	■
Data Warehouse & Reporting	■	■

Terms of the TFS Preview

1. We provide the service, you provide the feedback
2. You can “go live” with VS 2010 clients
3. Support comes via the MSDN forums
4. We will upgrade your data to future releases
5. We will maximize uptime, but we’re learning
6. Someday, we may start charging for the service

Call to Action

- Sign up for your account
- Evaluate Visual Studio 11 with the Team Foundation Service
- Tweet your friend code
